

Overview

OpenEMIS Assessments is an open source web based application to create EGRA and EGMA assessment packages and view the uploaded results for further analysis. OpenEMIS Assessments has a user-friendly interface that allows educationalists to create standard EGRA/EGMA questions in any language and then publish the package so that it can be downloaded and used offline in the OpenEMIS EGRA mobile app. Completed packages are then uploaded back to OpenEMIS Assessments for research and analysis.

Benefits

- ✓ Create, view, edit and publish assessment packages including author, publisher, grade, language and cost
- ✓ Edit standard EGRA tasks to create country and culture specific content
- ✓ Develop standard EGRA tasks in any language
- ✓ Published EGRA packages can be downloaded by the OpenEMIS EGRA mobile app and used offline without an internet connection.

ID	Name	IC	tasks	male students	female students	total students	Action
1	EGRA Grade 1 English CE1 PE	8	1	0	1	1	Select ✓
