

# Training Services - Administrator (OESC07TS02)

## Description

This course is designed for OpenEMIS administrators, who require full technical overview of the OpenEMIS software architecture and a detailed understanding of how to install and configure OpenEMIS. After completing this course, participants will be issued a certificate of attendance and may also choose to undertake assessment tasks to become a Certified OpenEMIS Administrator.

## Purpose(s)

To build capacity in the management of OpenEMIS, ensuring that participants are able to understand the OpenEMIS architecture and technical concepts; install and configure OpenEMIS and undertake general OpenEMIS system administrative tasks.

# Deliverable(s)

 Trained persons (maximum 12) equipped to serve as a system administrator for OpenEMIS

## **Duration**

The duration of this activity is 3 days.

#### Location

The location of this activity is onsite.

# Prerequisite(s)

Participants are expected to have a basic knowledge of education management and information systems. It is recommended that participants also complete the OpenEMIS Professional training course.
