## Overview

OpenEMIS Profiles is a free mobile application for iOS and Android that facilitates the download and management of offline profiles. Each PDF profile is linked to a geographic area. These profiles can be used offline on mobile devices by management; education planners; district education officers; principals and the community to analyze and present data for their area. Profiles can be loaded manually or downloaded from OpenEMIS Dashboard.

Benefits

- ✓ Download and use for free
- ✓ Reduce the need for printed profiles
- ✓ Download the latest profiles
- ✓ Use on a phone or tablet
- ✓ Can be used anywhere as it does not require internet access

Features

- ✓ Search, sort, view and print profiles
- ✓ Create folders to organize profiles
- ✓ Download profiles from an OpenEMIS Dashboard server based on the settings
- ✓ Share profiles with others via email etc.
- ✓ Works in multiple languages
- ✓ Works offline

Requirements

- ✓ Android - 4.0 or greater
- ✓ iOS - 4.3 or greater
