# OpenEMIS Visualizer

## Overview

OpenEMIS Visualizer enables the user to analyze and visualize indicator-based data by area, time period, and source in tables, graphs, and maps on a mobile device. OpenEMIS Visualizer has a userfriendly interface that allows decision makers, education planners, field workers, NGO's, and researchers to easily analyze data. With OpenEMIS Visualizer the user can save and share visualization objects that can be easily integrated to presentations, brochures and/or other materials. OpenEMIS Visualizer turns raw data into usable information.

## Benefits

- ✓ Creation of visualization objects
- ✓ Easily integrate visual outputs to presentations
- ✓ Support tool for field workers and education stakeholders

## Features

- ✓ User friendly web and mobile app interfaces
- ✓ Connects to the OpenEMIS Data Warehouse databases
- ✓ Create powerful visualization objects including tables, graphs and maps

## Requirements

- ✓ Android - 4.0 or greater
- ✓ iOS - 4.3 or greater
