

### Overview

OpenEMIS Admissions is a web application that facilitates the registration of students for the academic school year. It streamlines the admission process for the students, parents and school administrators. Parents or students can register online for a specific institution and grade. The online application is then sent in real time to the school for processing.

### Benefits

- ✓ Directly links to OpenEMIS Core
- ✓ Student applications may be for new or existing student enrolments
- ✓ Student registration applications are electronic rather than paper-based
- ✓ Student enrolment data is managed accurately with real time data
- ✓ Online application form that runs on any web browser or mobile device with an internet connection

### Features

- ✓ The list of available institutions is readily available for applicants.
- ✓ Applicants can apply to multiple institutions
- ✓ Includes student identities, location, address area, and birthplace
- ✓ Includes guardian information
- ✓ Existing students can be registered for the new academic school year

### Requirements

- ✓ Operating system - Linux, Windows or Macintosh
- ✓ Webserver – Apache / Nginx
- ✓ Browser - IE, Chrome, Firefox or Safari
